

**INTERIM CONDENSED CONSOLIDATED
FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED
DECEMBER 31, 2023 AND 2022
(Unaudited - Expressed in Canadian Dollars)**

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying interim condensed consolidated financial statements of Cypherpunk Holdings Inc. were prepared by management in accordance with International Financial Reporting Standards. The most significant of these standards have been set out in the note 2 of these interim condensed consolidated financial statements. Any applicable changes in accounting policies have also been disclosed in these financial statements. Management acknowledges responsibility for the preparation and presentation of the financial statements, including responsibility for significant accounting judgments and estimates and the choice of accounting principles and methods that are appropriate to the Company's circumstances.

The Board of Directors is responsible for ensuring management fulfills its financial reporting responsibilities and for reviewing and approving the financial statements together with other financial information. The Audit Committee assists the Board of Directors in fulfilling this responsibility. The Audit Committee meets with management to review the internal controls over the financial reporting process and the period end financial statements together with other financial information of the Company. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the financial statements together with other financial information of the Company for issuance to the shareholders.

Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Management is responsible for establishing and maintaining adequate control over its financial reporting. Management conducted an evaluation of the effectiveness of internal control over financial reporting based on "Internal Control Over Financial Reporting Guidance for Smaller Public Companies" issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, management concluded that the Company's internal control over financial reporting was effective as at December 31, 2023.

CONCLUSION RELATING TO DISCLOSURE CONTROLS AND PROCEDURES

An evaluation was performed under the supervision and with the participation of management, including the Chief Executive and Chief Financial Officers, of the effectiveness of the Company's disclosure controls and procedures as defined in the National Instrument 52-109. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the design and operation of the Company's disclosure controls and procedures were effective as at December 31, 2023.

NOTICE TO READER

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the financial statements; they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying interim condensed consolidated financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these interim condensed consolidated financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants for a review of financial statements by an entity's auditor.

Three months ended December 31, 2023 and 2022

1. NATURE OF OPERATIONS AND GOING CONCERN

Cypherpunk Holdings Inc. (the "Company" or "Cypherpunk") is a publicly listed company incorporated in Canada under the legislation of the Province of Ontario. The registered office of the Company is located at 217 Queen St W #401, Toronto, ON M5V 0R2. Since February 4, 2019, the Company's common shares trade on the Canadian Securities Exchange ("CSE") under the trading symbol "HODL".

The Company's business plan is based on its investment thesis that there will be increasing demand for technologies and cryptocurrencies with strong privacy, self-sovereignty, and digital property rights (the "Thesis"). Cypherpunk executes its Thesis through three lines of effort: (1) Treasury management and diversified yield generation - a core holding of crypto currencies supported with risk management strategies to reduce volatility, and lending, staking and liquidity provisioning to generate yield; (2) Private equity focused on early stage companies in the privacy, gaming, DeFi and blockchain sectors; and (3) Active investments to generate yield including bitcoin mining. The Company's cryptocurrencies and related investments may be subject to significant fluctuations in value and are subject to risks unique to the asset class and different from traditional financial assets (note 16). Additionally, during the three months ended December 31, 2023, certain assets were held in cryptocurrency exchanges or with custodians that are limited in oversight by regulatory authorities.

Basis of Presentation

The unaudited interim condensed consolidated financial statements have been prepared and presented on a going concern basis. The Company has sufficient cash and cash equivalents and other assets to support its operations for the next twelve months from the date of the issuance of the unaudited interim condensed consolidated financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Statement of Compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and the interpretations issued by the IFRS Interpretations Committee. These unaudited interim condensed consolidated financial statements for the three month period ending December 31, 2023 (the "Interim Statements") have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by the IASB.

The policies applied in these Interim Statements are based on IFRSs issued and outstanding as of February 29, 2024, the date the Board of Directors approved the Interim Statements. The same accounting policies and methods of computation are followed in these Interim Statements as compared with the most recent audited annual financial statements as at and for the year ended September 30, 2023. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending September 30, 2024 could result in restatement of these Interim Statements.

14. CONTINGENT LIABILITIES

Netherlands Preliminary Tax Assessment - On February 15, 2017 the Company received an income tax reassessment from the Netherlands tax authority reassessing the Company's subsidiary KRBV for an amount payable of 3.3 million euros (CAD\$5 million). This reassessment was pursuant to management challenging an earlier preliminary assessment for an amount payable by KRBV of 11.4 million euros. The preliminary tax assessment and the reassessment were both issued before KRBV had filed its 2016 tax return and as such are based on incomplete information. The 2016 tax return has since been filed. It is management's opinion that the assessed amount payable of 3.3 million euros (CAD\$5 million) continues to be an over assessment. The Netherlands Tax Authority has again issued a preliminary assessment and the Company has filed a notice of objection to this assessment. Management believes that this issue will be resolved when the Netherlands tax authority has completed a review of all the facts. As a result, no provision has been made for this reassessment in these Interim Statements.

Disputed Claim for Unpaid Services – During the year ending September 30, 2021, the Company received a claim for unpaid services of 83,731 euros (the "Claim") from a Netherlands based company that had been engaged to provide administrative services to KRBV (the "Engagement"). The Engagement was terminated by the Company on July 29, 2020. The Company has accrued 50,000 euros (\$73,980) for the Claim in these Interim Statements. The Company has not received any new information regarding the Claim in during the three months ended December 31, 2023 and believes that the lawsuit is unlikely to result in any liability to the Company.

15. FAIR VALUE

The fair value of the Company's cash and cash equivalents are not materially different from the carrying values given the short term nature.

Recurring fair value measurements (financial and non-financial assets)

(i) Fair value hierarchy

The Company records certain financial instruments or assets on a recurring fair value basis as follows:

Cryptocurrencies	-	7,852,418	-
	\$ -	\$ 18,653,654	\$ 1,343,222

The Company defines its fair value hierarchy as follows:

Level 1: The fair value of financial instruments traded in active markets (such as publicly traded equity securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the group is the current bid price. These instruments are included in level 1.

Level 2: The fair value of financial instruments that are not traded in an active market (e.g., other public markets) is determined using valuation techniques that maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

The Company exercised significant due diligence and judgement and determined that this presence and availability of this market was the most advantageous market and utilized the pricing available in the market as an estimate of the fair value of the investment. In addition, The Company's cryptocurrencies, convertible loan, and assets held as collateral are classified as Level 2 determined by taking the price from www.coinmarketcap.com as of 24:00 UTC.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

(ii) Valuation techniques used to determine fair values:

Specific valuation techniques used to fair value financial instruments, specifically those that are not quoted in an active market. These are development stage companies, as such the Company utilized a market approach:

- a) The use of quoted market prices in active or other public markets
- b) The use of most recent transactions of similar instruments
- c) Changes in expected technical milestones of the investee
- d) Changes in management, strategy, litigation matters or other internal matters

e) Significant changes in the results of the investee compared with the budget, plan, or milestone

(iii) *Transfers between levels 2 and 3*

There were no transfers between levels 2 and 3 during the three months ended December 31, 2023 and the year ended September 30, 2023.

(iv) *Valuation inputs and relationships to fair value*

The following table summarizes the quantitative information about the significant unobservable inputs used in the level 3 fair value measurements (see above for valuation techniques adopted):

Description	Fair Value		Unobservable Inputs	Range of inputs
	December 31, 2023	September 30, 2023	December 31, 2023	December 31, 2023
Investments	\$ 1,317,597	\$ 1,343,222	(a) and (b)	N/A

(vi) *Valuation processes*

The Investment Committee includes a team that performs the valuations of all items required for financial reporting purposes, including level 3 fair values. This team collaborates with the chief financial officer (“CFO”) at least once every three months which is in-line with the Company's reporting requirements. The main Level 3 inputs derived and evaluated by the Company's team are the timeline for expected milestones and assessment of the technical matter relating to the technology.

The independent valuers utilized a variety of approaches and assumptions, including but not limited to:

- Income, comparable market multiples, precedent transactions, and cost approach
- Forecast revenue, expenses, and profitability
- Income tax
- Capex
- Discount rates
- Residual value
- Volatility of underlying asset
- Risk free rate of interest
- Value of strategic coin reserves, if any
- Weighting of various valuation approaches
- Timing of liquidity date, if any

The Company performed a sensitivity analysis on the carrying value of its Level 3 assets at December 31, 2023 and noted that a 20% decrease would result in a \$263,519 decrease in fair value.

16. FINANCIAL RISK FACTORS

Capital Management

The Company manages and adjusts its capital structure, based on the funds available to the Company, in order to support the investment in cryptocurrencies and blockchain companies. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company considers capital to be its capital stock, warrant, and stock option components of shareholders' equity.

To effectively manage the Company's capital requirements, the management has in place a planning, budgeting, and forecasting process to help determine the funds required to ensure the Company has the appropriate liquidity to meet its operating and growth objectives. The Company ensures that there are sufficient working capital and planned future capital raises to meet its short-term business requirements, taking into account its anticipated cash flow from operations and its holding of cash and short-term investments.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. The Company is not subject to capital restrictions other than described in note 11.

There were no changes in the Company's approach to capital management during the three months ended December 31, 2023.

Safeguarding of Cryptocurrency Assets

The Company retains one third-party custodian (the "Custodian") to safeguard its cryptocurrency assets; Coinbase Custody Trust Company, LLC ("Coinbase") to hold the Company's Bitcoin and Ethereum cryptocurrency assets. The Custodian is only responsible for holding and safeguarding the Company's cryptocurrency assets and has not appointed a sub-custodian to hold certain cryptocurrency assets.

Coinbase, located at 200 Park Avenue South, Suite 1208, New York, NY 10003, is regulated by the New York Department of Financial Services (NYDFS) and operates as an independently capitalized entity. Coinbase is a fiduciary under § 100 of the New York Banking Law and is licensed to custody its clients' digital assets in trust on their behalf. As a New York state-chartered trust, Coinbase is held to the same fiduciary standards as national banks and is a qualified custodian for purposes of § 206(4)-2(d)(6) of the Advisers Act, commonly called the custody role.

Cypherpunk is not aware of anything with regards to the Coinbase's operations that would adversely affect the Company's operations and there are no known security breaches or other similar incidents involving the custodian as a result of which the Company's cryptocurrency assets have been lost or stolen. Coinbase held 100% of the Company's bitcoin holdings and carries an annually renewed commercial crime policy, with Coinbase Global Inc., Coinbase's parent company, as the named insured. In the event of a bankruptcy or insolvency Cypherpunk will enforce its rights under the Custodial Services Agreement through Arbitration under the laws of the State of New York, and will be in contact with Coinbase's Regulator, the New York State Department of Financial Services, as well as Coinbase's named insurer.

The due diligence Cypherpunk performed on Coinbase included confirmation that an annual SOC 1 audit report pertaining to internal controls over financial reporting, as well as an annual SOC 2 audit report pertaining to controls related to operations and compliance were completed by Coinbase, a review of negative news related to Coinbase, and a review of

Zerocap is registered with the Australian Transaction Reports and Analysis Centre ("AUSTRAC") as a Digital Currency Exchange ("DCE") and complies with the Money Laundering, Terrorist Financing and Transfer for Funds (Information on the Payer) Regulations. The Company uses Zerocap for its OTC derivative trading desk. The Company is not aware of anything with regards to Zerocap's operations that would adversely affect their ability to obtain an unqualified audit opinion on its audited financial statements. Zerocap is not related to the Company.

Risk Disclosures

Exposure to credit, interest rate, cryptocurrency and currency related risks arises in the normal course of the Company's business.

Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into, causing the other party to incur a financial loss. The Company limits its credit risk by placing its cash with high credit quality financial institutions and with cryptocurrency exchanges on which the Company has performed internal due diligence procedures. The Company deems these procedures necessary as some exchanges are unregulated and not subject to regulatory oversight. Furthermore, cryptocurrency exchanges engage in the practice of commingling their clients' assets in exchange wallets. When cryptoassets are commingled, transactions are not recorded on the applicable blockchain ledger but are only recorded by the exchange. Therefore, there is risk around the occurrence of transactions, or the existence of period end balances represented by exchanges.

As at December 31, 2023, the Company holds \$1,940,949 in cash and cash equivalents at high credit quality financial institutions (September 30, 2023 - \$1,927,280). The Company's due diligence procedures around exchanges and custodians utilized throughout the period include, but are not limited to, internal control procedures around on-boarding new exchanges or custodians which includes review of the exchanges or custodians anti-money laundering ("AML") and know-your-client ("KYC") policies by the Company's chief investment officer, constant review of market information specifically regarding the exchanges or custodians security and solvency risk, setting balance limits for each exchange account based on risk exposure thresholds and preparing weekly asset management reports to ensure limits are being followed and having a fail-over plan to move cash and cryptocurrencies held on an exchange or with a custodian in instances where risk exposure significantly changes.

There is no significant credit risk with respect of receivables.

Interest Rate Risk

The Company has no exposure to interest rate risk since there are no outstanding debts or other payables subject to interest charges at the end of the reported periods.

Cryptocurrencies Risk

Cryptocurrencies are measured at fair value less cost to sell. Cryptocurrency prices are affected by various forces including global supply and demand, interest rates, exchanges rates, inflation or deflation and political and economic conditions. Further, cryptocurrencies have no underlying backing or contracts to enforce recovery of invested amounts. The profitability of the Company is related to the current and future market price of cryptocurrencies; in addition, the Company may not be able to liquidate its cryptocurrencies at its desired price if necessary. Investing in cryptocurrencies is speculative, prices are volatile, and market movements are difficult to predict. Supply and demand for such currencies change rapidly and are affected by a variety of factors, including regulation and general economic trends.

Cryptocurrencies have a limited history; their fair values have historically been volatile, and the value of cryptocurrencies held by the Company could decline rapidly. A decline in the market prices of cryptocurrencies could negatively impact the Company's future operations. Historical performance of cryptocurrencies is not indicative of their future performance.

Many cryptocurrency networks are online end-user-to-end-user networks that host a public transaction ledger (blockchain) and the source code that comprises the basis for the cryptographic and algorithmic protocols governing such networks. In many cryptocurrency transactions, the recipient or the buyer must provide its public key, which serves as an address for a digital wallet, to the seller. In the data packets distributed from cryptocurrency software programs to confirm transaction activity, each party to the transaction user must sign transactions with a data code derived from entering the private key into a hashing algorithm, which signature serves as validation that the transaction has been authorized by the owner of the cryptocurrency. This process is vulnerable to hacking and malware and could lead to theft of the Company's digital wallets and the loss of the Company's cryptocurrency.

Cryptocurrencies are loosely regulated and there is no central marketplace for exchange. Supply is determined by a computer code, not a central bank. Additionally, exchanges may suffer from operational issues, such as delayed execution, which could have an adverse effect on the Company.

The cryptocurrency exchanges on which the Company may trade on are relatively new and, in many cases, largely unregulated, and therefore may be more exposed to fraud and failure than regulated exchanges for other assets. Any financial, security, or operational difficulties experienced by such exchanges may result in an inability of the Company to recover money or cryptocurrencies being held on the exchange. Further, the Company may be unable to recover cryptocurrencies awaiting transmission into or out of the exchange, all of which could adversely affect an investment of the Company. Additionally, to the extent that the digital asset exchanges representing a substantial portion of the volume in digital asset trading are involved in fraud or experience security failures or other operational issues, such digital asset exchanges' failures may result in loss or less favorable prices of cryptocurrencies, or may adversely affect the Company, its operations, and its investments.

Furthermore, crypto-exchanges engage in commingling their client's assets in exchange wallets. When crypto-assets are commingled transactions are not recorded on the applicable blockchain ledger but are only recorded by the exchange. Therefore, there is a risk around the occurrence of transactions or existence of period end balances represented by exchanges.

Loss of access risk

The loss of access to the private keys associated with the Company's cryptocurrency holdings may be irreversible and could adversely affect an investment. Cryptocurrencies are controllable only by an individual that possesses both the unique public key and private key or keys relating to the "digital wallet" in which the cryptocurrency is held. To the extent a private key is lost, destroyed, or otherwise compromised and no backup is accessible the Company may be unable to access the cryptocurrency.

Irrevocability of transactions

Cryptocurrency transactions are irrevocable and stolen or incorrectly transferred cryptocurrencies may be irretrievable. Once a transaction has been verified and recorded in a block that is added to the blockchain, an incorrect transfer or theft generally will not be reversible, and the Company may not be capable of seeking compensation.

Hard fork and air drop risks

Hard forks may occur for a variety of reasons including, but not limited to, disputes over proposed changes to the protocol, significant security breach, or an unanticipated software flaw in the multiple versions of otherwise compatible software. In the event of a hard fork in a cryptocurrency held by the Company, it is expected that the Company would hold an equivalent amount of the old and new cryptocurrency following the hard fork.

Air drops occur when the promoters of a new cryptocurrency send amounts of the new cryptocurrency to holders of another cryptocurrency that they will be able to claim a certain amount of the new cryptocurrency for free.

The Company may not be able to realize the economic benefit of a hard fork or air drop, either immediately or ever, for various reasons. For instance, the Company may not have any systems in place to monitor or participate in hard forks or airdrops.

Market Risk

Market risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or foreign currency risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All investments present a risk of loss of capital. The maximum risk resulting from financial instruments is equivalent to their fair value. The Company's investments are susceptible to other market risk arising from uncertainties about future prices of the instruments. The Company moderates this risk through the various investment strategies within the parameters of the Company's investment guidelines.

As at December 31, 2023, management's estimate of the effect on equity to a +/- 10% change in the market prices of the Company's investments, with all other variables held constant, is \$911,313 (September 30, 2023 - \$646,412).

Foreign Currency Risk

The Company is exposed to foreign currency risk on financial assets and liabilities that are denominated in a currency other than the Canadian dollar. The currencies giving rise to this risk are primarily the U.S. dollar, Australian dollar, and the Euro, the balance of net monetary assets in such currencies as of December 31, 2023 is \$1,703,453 (September 30, 2022 -

\$1,669,621). Sensitivity to a plus or minus 10% change in the foreign exchange rates would result in a foreign exchange gain/loss of \$170,345 (September 30, 2023 - \$166,962).

Liquidity Risk

The Company is exposed to liquidity risk primarily as a result of its trade accounts payable as well as the risk of not being able to liquidate assets at reasonable prices. The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at December 31, 2023, the Company had cash and cash equivalents balance of \$1,940,949 (September 30, 2023 - \$1,927,280) to settle accounts payable and accrued liabilities of \$172,892 (September 30, 2023 - \$226,476). All of the Company's trade accounts payable have contractual maturities of less than 30 days and are subject to normal trade terms.

17. INCOME TAX

As at September 30, 2023, the Company recognized a deferred tax asset of \$nil (2022 - \$201,518) in respect of Canadian non-capital loss carry forwards, leaving approximately \$1,285,482 expiring between 2037 and 2040, and a net deferred tax liability of \$633,145. The net deferred tax assets which originated during the year ended September 30, 2023 have also not been recognized in the Interim Statements.

18. SEGMENTED INFORMATION

The Company operates in one reportable operating segment being investment in cryptocurrencies and blockchain technology.

19. SUBSEQUENT EVENTS

On February 20, 2024, the Company announced that it intends to commence a normal course issuer bid, under which it may purchase up to 7,603,359 common shares of the Company over a period of one year.
